

10G Optical Switch Delivery Date in Norway

Article Overview

Delivery of 10G optical switches to Norway typically ranges from 3 to 10 business days, depending on the vendor and shipping method.

Availability of 10G Switches

Several professional-grade 10G switches are available for purchase in Europe, which can be shipped to Norway:

- o Ubiquiti USW-Pro XG: A 10-port 10GbE Layer 3 PoE+++ switch with 2 SFP+ ports, available from the Ubiquiti EU store .
- o MikroTik CRS312-4C+8XG-RM: Offers 8 x 10G RJ45 ports and 4 combo 10G ports (RJ45 or SFP+), suitable for high-throughput applications .
- o QSFPTEK 10G SFP+ RJ45 Modules: Compatible with major brands, these modules allow upgrading existing switches to 10GBASE-T over copper cabling .

Shipping and Delivery Considerations

- o European vendors like Ubiquiti EU Store and Desertcart Norway generally ship to Norway within 3-7 business days for in-stock items.
- o Customs and import duties may add 1-3 additional days, depending on the shipping carrier and Norway's import regulations.
- o Backorders or high-demand models may extend delivery to up to 10 business days or longer.

Recommendations

- o Check stock status on the vendor's website before ordering, as availability can fluctuate.
- o Select express shipping if rapid deployment is required; carriers like DHL, UPS, or FedEx often provide tracking and faster delivery.
- o Consider local distributors in Norway for immediate availability, which may reduce shipping time and customs delays. In summary, if the 10G switch or SFP+ module is in stock, you can generally expect delivery to Norway within 3-10 business days, with faster options available through express shipping or local resellers .
