

24-port all-optical optical switch

Preview

Features 24 10G SFP+ optical ports and 2 100G QSFP28 ports, with all ports supporting wire-speed forwarding to meet high-density access requirements for 10GE servers. A 24-port, Layer 2 switch with a silent, fanless cooling system. Faster replacement and priority support, covered for 5 years. The hot-swappable design means that fans and power supplies can be replaced without affecting switch operation. They can also be used as. The VSU connects to peripherals through an aggregate link, realizing service switching in milliseconds upon a failure.
