

Article Overview

Cable tray accessories in Cambodia include bends, risers, tees, reducers, and fittings designed for efficient cable management in industrial and commercial installations.

Types of Cable Tray Accessories

- o Bends: Used to change the direction of cable trays, available in horizontal and vertical configurations for smooth routing .
- o Risers: Include inside risers for upward transitions and outside risers for controlled downward routing .
- o Tees: Allow branching of cable circuits to multiple directions .
- o Reducers: Facilitate smooth width transitions between different tray sizes .
- o Fittings and Clamps: Include wire mesh fittings, hose clamps, and cable ties to secure cables and maintain organization .

Material and Finish

Accessories are typically manufactured from mild steel or galvanized iron (GI) and finished with hot-dip galvanization, pre-galvanized coating, or powder coating to enhance corrosion resistance and durability . This ensures long-term performance in Cambodia's industrial and commercial environments.
