Ideal for both indoor and outdoor installations, these trays provide a cost-effective, durable, and long-lasting solution for routing cables in various applications, including industrial plants, power stations, and infrastructure projects. Superfab Inc presents Hot Dip Galvanized Cable Trays, designed for reliable cable management in demanding environments. Compared with pre-galvanized finishes, HDG provides significantly higher corrosion resistance and mechanical durability, making it suitable for demanding service. 40 Series Perforated hot-dip is a high capacity cable transportation system resistant to harsh outdoor conditions. Hot-dip galvanized coating provides excellent protection against rust and corrosion. Suitable for industrial applications. 60 Series Perforated hot-dip, heavy-duty. We offer hot-dip galvanizing, mechanical plating, processing of stainless steel and steel sheets including laser cutting and ALMAC coating. As a tradition-conscious company founded in 1888. As Carl Rahmede GmbH, we look back on over 160 years of tradition in metalworking.
