

Article Overview

Key providers of optical cable splicing and fiber optic solutions in Bahrain include ALKOMED, DigiWorld, Almoayyed Trading & Contracting (ATC), and Chrome Electricals.

ALKOMED Engineering Services

ALKOMED offers comprehensive fiber optic cable installation and splicing services using advanced equipment like the Fujikura FSM-50S splicing machine. They handle single-mode, multi-mode, DTS, and dispersion-shifted fibers, providing on-site testing, commissioning, and fault location services. Their expertise extends to high-voltage power cable networks, but they also deliver full fiber optic solutions including splice loss measurements, end-to-end system loss, and drum tests across Bahrain and the Middle East .

DigiWorld

DigiWorld specializes in fiber optic installations, splicing, and repairs for both indoor and outdoor networks. They provide aerial and underground construction for FTTH, FTTC, FTTP, and FTTX networks. Their services cover full turnkey solutions, emergency restoration, and maintenance for communications carriers, broadband providers, and industrial clients. DigiWorld emphasizes high-quality splicing and testing, supported by a team of experienced professionals .

Almoayyed Trading & Contracting (ATC)

ATC supplies a full range of fiber cabling systems including SM, OM3, OM4, and OM5 fibers from brands like Datwyler and Excel. They provide structured cabling solutions, pre-terminated cables, patch cords, adaptors, pigtails, and high-density solutions. ATC also offers installation, logistics, system engineering, and maintenance, making them a one-stop provider for fiber optic infrastructure projects .

Chrome Electricals

Chrome Electricals is a trading company in Bahrain offering fiber optic cables along with other electrical products. They provide connectors, cable glands, and accessories, supporting both commercial and industrial installations. While primarily a supplier, they also offer technical support and after-sales services for fiber optic systems .

Summary

For optical cable splicing and fiber optic solutions in Bahrain, these companies provide a mix of

manufacturing, supply, installation, splicing, testing, and maintenance services. ALKOMED and DigiWorld are particularly strong in on-site splicing and turnkey network solutions, while ATC and Chrome Electricals focus on high-quality cabling products and structured systems. Depending on your project needs--whether installation, splicing, or supply--these providers offer reliable options throughout Bahrain .
