

Article Overview

Leading busbar and cable tray manufacturers include Eurotray, EAE Electric, Renyun, Barla Energy, and MP Husky, offering a wide range of power distribution and cable support solutions.

Key Manufacturers and Offerings

Eurotray - Founded in 2006 in Turkey, Eurotray specializes in flexible busbars and cable support systems. They provide solutions for diverse electrical and energy applications, with production facilities in Turkey and a subsidiary in Germany . **EAE Electric** - Operating since 1973, EAE Electric offers busbar energy distribution systems, cable trays, fit-out solutions, and support systems. They are known for reliability and long-standing experience in industrial and commercial installations . **Renyun (Hunan) Busbar Co., Ltd.** - Established in 2008, Renyun focuses on busbars, bus ducts, and cable trays. Their products include compact busbar systems for 400-1600A applications, resin-cast busbars, and data center busbars. They operate a 50,000 m2 production facility with eight automated production lines and maintain 12 offices worldwide for global coverage . **Barla Energy** - Barla Energy manufactures busbar trunking systems and cable channels, emphasizing modular energy distribution solutions. Their products are designed for flexibility, efficiency, and safety, with cable trays produced using advanced roll-forming techniques and available in standard or custom lengths . **MP Husky** - Based in the USA and Canada, MP Husky is a leading supplier of UL CSA NEMA-compliant cable trays, wire mesh/basket trays, and cable bus systems. They offer aluminum, stainless steel, and galvanized steel options, serving industrial, commercial, and nuclear applications. MP Husky emphasizes engineering expertise, reliability, and cost-effective solutions .

Considerations When Choosing a Manufacturer

- o **Material and Coating:** Options include pre-galvanized, hot-dipped galvanized, stainless steel, and anodized aluminum.
- o **System Type:** Choose between flexible busbars, compact busbars, resin-cast busbars, or modular trunking systems depending on load and installation environment.
- o **Customization:** Many manufacturers offer custom lengths, thicknesses, and tap-off configurations.
- o **Certifications:** Look for UL, CSA, NEMA, or international safety certifications to ensure compliance and reliability.
- o **Global Presence:** Manufacturers with international offices or distributors can provide better support for large-scale or multi-location projects. These manufacturers collectively cover a wide range of industrial, commercial, and data center applications, providing both standard and customized busbar and cable tray solutions.
