

Cable Management Cabinet

Preview

A cable management rack is designed to route, protect, and organize copper and fiber cables inside network cabinets. Complete server/networking solutions with patented, easy-to-install cabling infrastructure. Defining cable pathways is more than aesthetics - a properly configured cabling environment helps ensure maximum signal quality and transmission speed by eliminating kinks, twists and sharp bends. FlexFusion(TM) Cabinets XG offer a unique universal platform. Belden offers a complete line of open frame racks and cabinets that support all applications, from single-rack or cabinet applications (such as retail and telecom closets) to high-density, multi-rack/multi-cabinet patching and switching fields (in computer rooms, data centers and central offices). There's a variety of cable management tools available that can help tidy up cable clutter in both professional and. Accessories for flexible cable entry in enclosures and case systems and efficient cable routing in enclosures and cases with a 482.

Speed up deployment time and maximize space with Belden's cable management options, designed to optimize cable bandwidth
