

Article Overview

Cable trays are available from leading manufacturers like Atkore, Chalfant, Sunil Engineering, and Oglaend System, with models ranging from ladder, perforated, wire mesh, to solid trays, priced according to material, size, and customization.

Leading Manufacturers

- o Atkore International: Offers a wide range of cable management systems including stainless steel, galvanized, and custom trays suitable for construction and renovation projects .
- o Chalfant Manufacturing: Known for innovative lines like GR_Magic, RKS-Magic, and BKRS-Walkable trays, providing durable and customizable solutions .
- o Sunil Engineering Corporation: Produces perforated, ladder, and wire mesh trays with accessories and junction boxes for indoor and outdoor applications .
- o ELCON CABLE TRAYS PVT. LTD.: Specializes in wire mesh, ladder, and perforated trays, emphasizing cost-effective and easy-to-install solutions .
- o Oglaend System: Offers stainless steel, galvanized, aluminum, and fiberglass (FRP/GRP) trays with various heights, widths, and slot patterns for flexible installation .
- o AMROCK: Provides FRP trays and EASYCONNECT wire mesh systems with quick-connect features for faster installation .

Common Models and Types

- o Ladder Trays: Ideal for heavy power cables; open design allows ventilation and easy cable access .
- o Perforated Trays: Solid base with holes for drainage and cable tie attachment; suitable for medium loads .
- o Wire Mesh Trays: Lightweight, flexible, and easy to cut; often used in IT and data centers .
- o Solid/Channel Trays: Fully enclosed or semi-closed for protection against dust, moisture, or chemicals .
- o Cable Ladders and Trunking: For specialized heavy-duty or enclosed installations .

Materials

- o Galvanized Steel: Corrosion-resistant, widely used in industrial and outdoor settings .
- o Stainless Steel: High durability, suitable for harsh environments .
- o Aluminum: Lightweight and corrosion-resistant, ideal for overhead installations .
- o Fiberglass (FRP/GRP): Non-conductive, corrosion-resistant, suitable for chemical or offshore environments .
- o PVC/Plastic: Halogen-free, fire-resistant, and lightweight for indoor applications .

Cable tray type cable tray manufacturer price

Pricing Overview

Cable tray prices vary based on material, size, load capacity, and customization:

- o Standard galvanized steel ladder trays: Approximately \$15-\$50 per meter depending on width and thickness.
- o Stainless steel or aluminum trays: Typically \$40-\$120 per meter.
- o Wire mesh trays: Around \$20-\$60 per meter.
- o Fiberglass trays: \$50-\$150 per meter, depending on load rating and environmental resistance.
- o Accessories and fittings: Brackets, bends, and junctions can range from \$5 to \$50 per piece depending on complexity and material .

Considerations for Selection

- o Load requirements: Choose ladder or walkable trays for heavy cables.
- o Environment: Corrosive or outdoor settings may require stainless steel or FRP.
- o Installation flexibility: Wire mesh trays allow easier routing and modifications.
- o Compliance: Ensure trays meet standards like DIN EN 61537 or IEC equivalents .
- o Customization: Many manufacturers offer tailored solutions for specific project needs . By comparing manufacturers, models, and materials, you can select cable trays that balance cost, durability, and installation efficiency for your project.
