

# Core Switch Huawei 16-port

## Preview

Huawei S1700-16G is an unmanaged switch which is easy to install and maintain, and is ideal for small- and medium-size enterprises, Internet cafes, hotels, and schools. It's one of the S1700 Series Enterprise Switches. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. A HUAWEI 16-port switch is a powerful networking solution designed to connect multiple devices within a local area network (LAN). Table 1 shows the. 16 Fast Ethernet Ports: Equipped with 16 Fast Ethernet ports, the S110-16LP2SR ensures seamless connectivity and efficient data transfer within your network. PoE Support: The switch supports Power over Ethernet (PoE), allowing you to power devices like IP cameras, VoIP phones, and wireless access. Huawei CloudEngine 6810 (CE6810 for short) series switches are next-generation 10G Ethernet switches designed for data centers and high-end campus networks, providing high-performance, high-density 10GE ports, and low latency.

Huawei campus switches offer high-performance, secure, and reliable switching for enterprises, governments, finance and manufacturing networks. [Learn more.](#)

Huawei S1700 series switches are ideal for small to medium-sized businesses, Internet cafes, hotels, schools, and others. They are easy to install and maintain and provide rich services, helping

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed

Ethernet Switches After more than 20 years of unremitting efforts and stable development, Huawei provides extensive experience in Ethernet switches. With

CloudEngine XH16800 Series Switches Hardware Description This document provides an overall hardware description of XH series switches CloudEngine XH16800-8 and CloudEngine XH16800-16,

Switches After more than 20 years of unremitting efforts and stable development, Huawei provides extensive experience in Ethernet switches. With multiple

Data Center Switches CloudEngine Data Center Switches -- Ethernet switches widely used in diverse applications and in different network sizes, in both data centers and high-end campus networks --

Campus-Switches von Huawei sind ideal f&#252;r den Aufbau von zukunfts&#228;higen
