The OXG-99C is an Optical Network Terminal (ONT) equipped with XGS-PON technology, it supports 10Gbps speed for up/downlink, bringing the higher internet speed on fiber. For broadband access, we have already mass-produced all mainstream, standard-rate optical network terminals in accordance with the latest industry standards. 11a/b/g/n/ac/ax standards over both 2.4 and 5 GHz standards and delivers 10Gbps symmetrical upstream and downstream bandwidth. It features 3 Gigabit Ethernet ports, 1 adaptive 2.5G LAN port, 2 FXS voice ports, and robust Layer 2/3. Designed for high-density deployments, this compact ONU features low power consumption and enterprise-grade reliability. The Nokia Optical Network Terminal (ONT) XS-010X-R ONT is designed to cater to residential customer requirements and offers data services to the subscriber through fiber to the home (FTTH) or fiber to

Temperature hardened and outdoor capable The Nokia Optical Network Terminal (ONT) XS-230X-A with one 10 Gigabit Ethernet (GigE), two GigE, and two plain

Discover our selection of GPON, EPON, and XG (S)PON ONT/ONU devices. Choose from reliable Optical Network Terminals for seamless connectivity and

The Adtran SDX 630 Series of 10G symmetric XGS-PON optical network terminals (ONTs) are designed to address the demands of residential and business customers in the multigigabit era.

1 standards and delivers 10Gbps symmetrical upstream and downstream bandwidth. It features 3 Gigabit Ethernet ports, 1 adaptive 2.5G LAN port, 2 FXS voice ports, and robust Layer 2/3

The TAA compliant Tellabs FlexSym™ Optical Network Terminal 205 (ONT205) offers 5-ports of Ethernet and multiple deep fiber mounting options. The Tellabs

The Nokia Optical Network Terminal (ONT) G-010G-A is designed to deliver gigabit speeds in an Optical LAN environment. The ONT G-010G-A provides a Gigabit Ethernet (GigE) user interface and delivers

The Nokia Optical Network Terminal (ONT) G-010G-T is the answer for home networking delivered by Gigabit Passive Optical Network (GPON). It is designed to connect individual users to the network for

SDN-ready solution business services. Part of the Adtran ecosystem of open-API access products, they enable easy integration into existing network infrastructure and SDN-based management systems.

Summary of Contents for Nokia G-010G-A Page 1 Nokia ONT G-010G-A Quick Reference Guide 1. Product Overview 2. Safety Guidelines The Nokia Optical

Focused on broadband-access and wireless-coverage products. For broadband access, we have already mass-produced all mainstream, standard-rate optical network terminals in accordance with

Support Portal provides access to various services for Nokia Customers and Partners, such as Product Documentation, SW Downloads, Ticket Creation and Case Handling.

The Nokia Optical Network Terminal (ONT) XS-010G-Q that has one 1/2.5 Gigabit Ethernet (GigE) is part of the industry-leading Nokia ONT product family and is compatible with the Nokia fiber to the x

The OXG-99C is an Optical Network Terminal (ONT) equipped with XGS-PON technology, it supports 10Gbps speed for up/downlink, bringing the higher internet speed on fiber.

Cisco 10G Routed PON ONTs are fully compliant with the XGS-PON ITU-T G.9807.1 standard and support symmetrical 10-Gbps downstream and upstream optical connectivity via an SC/APC optical

A 10 Gbps optical network terminal featuring a downlink 10 Gbps RJ45 port, ideal for super-fast multi-Gig FTTH services.
