

Custom Price of Lighting Distribution Boxes in Portugal

Article Overview

Pricing for custom-made lighting distribution boxes in Portugal varies widely depending on specifications, materials, and manufacturer, typically requiring direct quotes from suppliers.

Key Suppliers in Portugal

Several Portuguese companies specialize in custom lighting solutions and can provide tailored distribution boxes:

- o O/M: Offers customized indoor and outdoor LED and architectural lighting solutions, focusing on visual comfort and precise luminous control .
- o Softlight: Provides integrated lighting solutions for architectural projects, emphasizing energy efficiency and quality .
- o LEUK: Specializes in OEM and tailor-made lighting, including high-performance technical and decorative solutions with full customization options .
- o BrandedBoxes: Supplies custom LED light packaging and distribution boxes, with fast delivery across Portugal and compliance with EU energy regulations .

Factors Affecting Price

The cost of custom-made lighting distribution boxes depends on several factors:

- o Material and Build Quality: Metal enclosures, high-grade plastics, or IP-rated waterproof designs increase cost.
- o Size and Complexity: Larger boxes or those with complex internal wiring, multiple circuits, or modular designs are more expensive.
- o Customization Level: Custom finishes, branding, or integration with smart lighting systems can add to the price.
- o Compliance Requirements: EU energy label compliance, CE marking, and WEEE regulations may influence production costs .
- o Quantity Ordered: Bulk orders often reduce per-unit cost, while small or one-off projects are more expensive.

Typical Pricing Approach

- o Direct Quotes: Most Portuguese manufacturers provide quotes based on project specifications, as prices vary significantly with customization.

Custom Price of Lighting Distribution Boxes in Portugal

- o Range Estimates: For small to medium-sized custom LED distribution boxes, prices can range from EUR150 to EUR600 per unit, depending on complexity and materials. Larger or highly specialized boxes may exceed this range.
- o Lead Time: Standard turnaround is often 2-3 weeks, but highly customized solutions may take longer .

Recommendations

- o Contact Multiple Suppliers: Reach out to O/M, Softlight, LEUK, and BrandedBoxes with detailed specifications to obtain competitive quotes.
- o Specify Requirements Clearly: Include dimensions, material preferences, IP rating, number of circuits, and any smart lighting integration.
- o Consider Compliance: Ensure the boxes meet EU energy and safety standards to avoid regulatory issues.
- o Request Samples: For large projects, requesting a prototype can help verify quality and fit before full production. By following these steps, you can obtain accurate pricing and select the most suitable supplier for your custom lighting distribution boxes in Portugal.
