The ONWA NMEA Multiplexer & Distribution Box Series is designed to simplify and secure data and power connections on board vessels, industrial facilities, and telecommunication networks. These units ensure safe cable switching, reliable power supply, and stable data transfer, making them essential. The NMEA KMD-210 distribution box from ONWA is used to switch cables, hiding the branches of electrical connections. It has eight RS422 outputs, as well as two RS232 outputs. High-quality materials and robust product designs ensure a reliable connection, signal transmission and power. Below is an illustration of how Ericson products All Work Together to deliver safe, reliable power and lighting to critical temporary applications. Power Transformation Units convert 480V or 600V power, to lower voltages used for portable tools and lighting. Power Distribution Unit provide local. The NM8N High-voltage (HV) Series Molded Case Circuit Breaker (MCCB) from CHINT is engineered for AC systems up to 1150V, offering advanced protection and reliable operation in extreme conditions from -40°C to +70°C. Featuring zero-arcing interruption and high breaking capacities up to 50kA, it.

The Mitsubishi PAC-MKA52BC branch box is a refrigerant manifold and is used to ensure optimal refrigerant flow to the connected indoor units, as well as provide

Murrelektronik's passive distribution boxes provide a much more convenient method for connecting sensors and actuators to the control cabinet. Murrelektronik supplies a comprehensive range of

Power Transformation Units convert 480V or 600V power, to lower voltages used for portable tools and lighting. Power Distribution Unit provide local power with overload, open neutral protection and GFCI

M Series Distribution Boxes Amphenol LTW's distribution boxes offer streamlined connectivity solutions for industrial efficiency Amphenol LTW's distribution boxes serve as an

The Onwa Marine KMD-402 NMEA Distribution Box is designed to manage and distribute NMEA data from multiple devices, supporting 4 inputs and 2 outputs. This compact and efficient unit allows

Murrelektronik's passive distribution boxes provide a much more convenient method for connecting sensors and actuators to the control cabinet. Murrelektronik supplies a comprehensive range of

Oscar "Spider" Distribution Boxes, 30 - 50 Amp . Non-Metallic Distribution Boxes, 20 - 300 Amp

Distribution Box NM-Series

. PPB - Portable PanelBoard, 60 - 2000 Amp . PTS - Portable Automatic & Manual Transfer Switch . Cord &

Modular enclosure system for individual power distribution solutions and a broad product range for signal distribution. Available in all forms and configurations, also in special versions like ergonomic sensor

Buy Legrand Wiremold NM Series NM3-2 Outlet Box Raceway Cable Entry Wall Mounting Plastic at Walmart.com

Back Products Jobsite Power & Protection Power Distribution Units Non-Metallic Distribution Boxes, 20 - 300 Amp CDU CORDSET 16 AMP 120Y208V 6FT AWG 12/5 SOOW BLACK CABLE INPUT PLUG

Non-Metallic Distribution Boxes, 20 - 300 Amp CDU CORDSET 16 AMP 120Y208V 25FT AWG 12/5 SOOW BLACK CABLE INPUT PLUG = NEMA L21-20 OUTPUT BOX = 8000 SERIES WITH 3

The ONWA NMEA Multiplexer & Distribution Box Series is designed to simplify and secure data and power connections on board vessels, industrial facilities, and telecommunication networks.
