

Article Overview

You can request a quotation for EU pallet cable trays directly from suppliers like Eurostrut, Trayco, Eurotray, or Eaton, with options for custom sizes, coatings, and materials.

Key Suppliers and Options

Eurostrut offers cable trays made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. Their trays are available in various widths, heights, and configurations, including open or perforated designs for safe cable routing and reduced overheating risk. You can request a quote directly via their webshop for industrial or marine applications . Trayco provides cable trays with integrated ends, designed for high capacity, lightweight construction, and easy assembly. Their unique design can offer up to 50% extra capacity in certain applications. Customized quotes and project-specific advice are available upon request . Eurotray features the EU Series Heavy Duty Cable Tray, which is structured for ease of use and available in custom sizes and coatings. This series is suitable for projects requiring reinforced or strengthened cable support . Eaton provides a dedicated RFQ (Request for Quotation) form for cable trays. You can submit your project details, select your country, and receive a tailored quotation. Eaton handles data in compliance with privacy laws and can provide personalized pricing and product recommendations .

Considerations for Your Quotation

- o Material: Choose between hot-dip galvanized steel, stainless steel, or halogen-free plastic depending on environmental conditions and load requirements .
- o Load Capacity: Ensure the tray supports the weight of your cables, especially for heavy power or industrial installations.
- o Customization: Many suppliers offer custom lengths, widths, and coatings to meet specific project needs.
- o Compliance: Verify that the trays meet relevant standards such as DIN EN 61537 or IEC equivalents for safety and performance .
- o Installation: Consider ease of assembly and whether integrated ends or modular designs are beneficial for your project. To obtain a quotation, visit the supplier websites and submit your project specifications through their quote request forms or contact their sales teams directly. This ensures you receive accurate pricing and delivery options tailored to your requirements.

These products are designed to carry heavier cable loads compared to the standard perforated cable trays. This product group offers
