

Article Overview

Key East African companies providing optical cable terminal boxes and fiber optic solutions include East African Cables PLC, YOA Cables, Decko, and suppliers like Norden Communication.

Major Manufacturers and Suppliers

East African Cables PLC (EAC) Based in Nairobi, Kenya, with additional facilities in Dar es Salaam, Tanzania, EAC is a leading manufacturer of electrical and fiber optic cables in East and Central Africa. They offer a wide range of products including fiber optic solutions and related accessories, supporting power and telecommunication infrastructure across Kenya, Uganda, Tanzania, Rwanda, South Sudan, Somalia, Mozambique, and Eastern DRC. EAC emphasizes high-quality, durable cables suitable for both industrial and domestic applications . YOA Cables YOA Cable is Africa's largest optical fiber cable manufacturer, specializing in high-performance optical fiber products. They focus on innovations like Fast Fusion Technology (FFT) to simplify installation, reduce accidental damage, and minimize the need for specialized equipment. YOA serves the broader African market, providing flexible and high-speed fiber optic solutions . Decko Decko offers end-to-end fiber optic services, including engineering, construction, cable installation, splicing, and system support. They have experience with major projects such as the Safaricom Digital City Fibre Project and the National Optical Fibre Backbone Infrastructure (NOFBI). Decko also provides FTTx solutions (Fiber to the Home, Building, Desk, or Site) and network optimization services, making them a key service provider for optical fiber deployment in East Africa . Norden Communication Norden Communication supplies wall-mount optical terminal boxes suitable for external environments. Their OptiNor range includes welded and electrostatically coated cabinets with splice trays, cable management, locking, and earthing systems, providing complete protection for fiber cables and accessories. These terminal boxes are designed to maintain a 40 mm bending radius for fiber cables, ensuring durability and reliability in outdoor installations .

Summary

For East African optical cable terminal box needs, companies like East African Cables PLC and YOA Cables provide manufacturing capabilities, while Decko offers installation and network services. Norden Communication supplies specialized terminal boxes for external environments. These companies collectively cover manufacturing, supply, installation, and maintenance, supporting robust fiber optic infrastructure across the region.
