

Egypt-specific power distribution box manufacturer price quote

Article Overview

Leading Egyptian manufacturers of power distribution boxes include Keming, Lectrobar, Nijsha Enterprise, Masar Engineering, and Eisco Egypt, offering customizable solutions for industrial, commercial, and infrastructure projects.

Key Manufacturers and Offerings

1. Keming Electrical Keming supplies a wide range of power distribution boxes, including GGD, MNS, XL-21 low-voltage cabinets, energy storage systems, and metering solutions. Their products are designed for industrial, commercial, and renewable energy projects, including Egypt's New Administrative Capital and Benban Solar Park. Keming offers OEM and ODM services, allowing customization for voltage requirements, enclosure ratings, and compliance with Egyptian and international standards. They have over 150 certifications ensuring safety and quality. Price quotes can be requested directly through their website or sales team .
2. Lectrobar Founded in 1975, Lectrobar manufactures busduct systems, switchgear panels, MCCs, PCCs, and custom-built distribution boards. Their products are type-tested to IEC 61439-6 standards and certified by DEKRA. Lectrobar emphasizes in-house engineering and quality control, providing solutions for critical infrastructure, industrial facilities, and commercial projects. For pricing, potential buyers should contact their engineering or sales team for tailored quotes .
3. Nijsha Enterprise Nijsha Enterprise produces heavy-duty, modular power distribution boxes suitable for commercial and industrial applications. Their boxes include ground fault and circuit breaker protection, surge protection, and remote monitoring options. Modular designs allow easy expansion or customization. Pricing is not listed online, but inquiries can be made through their website to obtain a quote based on project specifications .
4. Masar Engineering Industries Masar offers electrical enclosures and wall-mount cabinets for industrial and residential applications. Their products provide protection against dust, oil, and water, and are suitable for housing electrical, electronic, hydraulic, or pneumatic controls. For pricing, direct contact with Masar is required to discuss size, configuration, and protection level .
5. Eisco Egypt (Fishbone Unika) Eisco Egypt manufactures powder-coated steel distribution boxes with one-piece construction to prevent hot spots. These are suitable for industrial and commercial installations. Price quotes are available upon request through their sales channels .

How to Obtain Price Quotes

Egypt-specific power distribution box manufacturer price quote

- o Identify your project requirements: voltage, number of circuits, indoor/outdoor use, protection rating (IP), and any special features like surge protection or remote monitoring.
- o Contact manufacturers directly: Use the contact forms or sales emails on their websites to request a detailed quote. Include specifications, quantities, and delivery location.
- o Compare offers: Evaluate based on price, certifications, warranty, customization options, and after-sales support.
- o Request technical support: Many manufacturers provide engineering consultation to ensure the selected distribution boxes meet local electrical codes and project needs.

By reaching out to these manufacturers with your project specifications, you can obtain accurate price quotes and select the most suitable power distribution solution for your needs.
