

Factory price quote for 90-degree cable tray bends

Article Overview

90-degree cable tray bends in the UK range from approximately GBP2.57 to GBP17.36 per piece, depending on size, duty rating, and finish.

Pricing Overview

- o 100mm Heavy Duty Cable Tray Bend: Sold individually, prices vary by supplier and specifications, typically higher due to heavy-duty construction .
- o Medium Duty Pre-Galvanised Bends: Available for standard installations, often in stock with free next-day delivery for orders over GBP100 ex VAT . Prices generally start around GBP2.57 per bend for smaller sizes and increase with width and material thickness .
- o 150mm Medium Duty Bend: Orbital Fasteners lists prices from GBP5.28 to GBP17.36 including VAT, depending on the specific model and flange depth .
- o Other Medium Duty Options: MIDFIX offers 25mm deep return flange 90-degree bends, available for next-day delivery, typically priced in the lower to mid-range for medium duty bends .

Factors Affecting Price

- o Tray Width and Depth: Larger trays (e.g., 150mm vs 100mm) cost more due to increased material.
- o Duty Rating: Heavy duty bends are more expensive than medium duty due to thicker steel and higher load capacity.
- o Finish: Pre-galvanised or coated bends may cost more than plain steel.
- o Supplier and Delivery: Prices can vary slightly between suppliers, and bulk orders may qualify for discounts or free delivery.

Practical Advice

- o For small projects, medium duty pre-galvanised bends are cost-effective and widely available.
- o For industrial or heavy-load applications, heavy duty bends are recommended despite higher cost.
- o Always check supplier stock and delivery options, as next-day delivery is available from several UK suppliers . By considering these factors, you can select the appropriate 90-degree cable tray bend that balances cost, durability, and installation requirements.
