

German electrical distribution boxes are low in price

Article Overview

Affordable German distribution boxes are available online from suppliers like Intratec, OBI, Konner & Sohnen, and SENTAL, offering options for indoor, outdoor, residential, and industrial use.

Where to Buy

- o Intratec offers a wide range of inexpensive distribution boxes, including wall-mounted and flush-mounted types, with various IP protection classes and rated currents. They also provide accessories like WAGO terminals, cable ties, and crimping tools, making it suitable for both private and commercial projects (Intratec).
- o OBI provides distribution boxes for home and garden projects, available online and in-store, suitable for smaller residential installations (OBI).
- o Konner & Sohnen specializes in high-quality boards for up to 7 circuits with 32A maximum current, suitable for indoor and outdoor use. Their boards include protective devices like circuit breakers and grounding bars, and some models feature integrated sockets for direct equipment connection (Konner & Sohnen).
- o SENTAL Export GmbH offers a variety of indoor and outdoor distribution boxes, including street cabinets, suitable for larger installations or construction sites (SENTAL).
- o idealo.de allows price comparison for multiple brands and types, including small wall-mounted boxes, under-distributors, and industrial cabinets, helping you find the cheapest option for your needs (idealo).

Types and Features

- o Residential Boxes: Smaller wall-mounted boxes for apartments or single-family homes, often including DIN rails for mounting circuit breakers and RCDs (idealo).
- o Industrial/Commercial Boxes: Larger cabinets or modular systems for higher currents, multiple circuits, and complex installations, often made of metal or impact-resistant plastic (idealo, Konner & Sohnen).
- o Protection Classes: IP20-IP65 options for indoor and outdoor use, ensuring protection against dust and water ingress (Intratec, Konner & Sohnen).
- o Accessories: Many suppliers offer additional components like circuit breakers, fuses, grounding bars, and cable management tools to complete the installation (Intratec, Konner & Sohnen).

Tips for Choosing

- o Determine the number of circuits you need to manage.
- o Check the rated current and ensure it matches your installation requirements.
- o Select the appropriate IP protection class for indoor or outdoor use.
- o Compare prices online using platforms like idealo.de to find the most cost-effective option.
- o Consider accessories included or available separately to avoid additional costs. By exploring these suppliers
