The module features an SFP+ form factor and an RJ-45 interface, enabling the use of CAT6A/CAT7 cables for connecting to endpoints with embedded 10GBASE-T ports. The 10GBASE-T module offers connectivity options at 10Gbps data rates. It supports distances of up to 80 metres, providing a. Optical modules transmit signals over optical fibers. The. 1G optical transceiver is featured with high-density and mature technology which is widely used in data center interconnection solutions. NADDOD SFP+ transceiver can help customers save more than 60% of the cost while ensuring first-class product quality depending on our top-class channel supply. Copper SFP modules help organizations leverage an existing copper infrastructure, not only saving the cost of rewiring, but also continuing the ever-changing world of optical fiber. To learn about practical adapter solutions that enable flexible network designs integrating both copper and fiber. We can supply SFP-GE-T-3 according to your requirements, and design SFP-GE-T-3 label and packaging for your company. Fiberise is your reliable supplier of SFP-GE-T-3.
