

HDMI optical transmitter

Preview

The HDMI-OPTN-TX200AU2K and HDMI-OPTN-RX100AU2K transmitter and receiver devices are fiber extenders based on SDVoE technology and allow users to extend HDMI 2.0 compliant video, audio and control signals from a single source to multiple destinations through a fiber optical link. While helping avoid bulky. The Analog Way EXT-HDMI20-OPT-TX is an HDMI(TM) 2.0 or a full HD signal to 1200m (~3900 ft). It supports resolutions up to 4K60 8 bits 4:4:4. Optical HDMI2.0 transmitter with analog audio output, local video output, KVM, and full USB2.0 support for point-to-multipoint (networked) applications. It transmits 4K HDMI video up to 1000 meters (3280 ft) through a single SC Duplex Multi-Mode fiber. The 4K HDMI over fiber extender is a cutting-edge device designed to extend high-definition video and audio signals over long distances using fiber optic cables.

The HDMI-OPTN-TX200AU2K and HDMI-OPTN-RX100AU2K transmitter and receiver devices are fiber extenders based on SDVoE technology and allow users to extend HDMI 2.0

Applies duplex fiber optic cables to connect the transmitter and the receiver FarSmooth - ATEN's exclusive FarSmooth technology prevents lagging and

The LNK-MH4K Series 4K HDMI Fiber Extender are designed to support transmission of an uncompressed lossless HDMI 1.4a signal over optical fiber up to distances of 20km, at a resolution of

The VE883T is a fiber-based transmitter designed to extend uncompressed 4K signal up to 980 feet (using VE883TK1) or 6.2 miles (using VE883TK2) over duplex fiber optic cables.

Shop Bluetooth transmitters for TV. Connect AirPods, Bose, Sony, and more. Enjoy private TV listening with easy setup and reliable audio.

676T is a high-performance HDMI fiber transmitter for ultra-reach extension of 4K@60Hz (4:4:4) HDMI signals. 676T converts the HDMI and RS-232 input

The LNK-MH4K Series 4K HDMI Fiber Extender are designed to support transmission of an uncompressed lossless HDMI 1.4a signal over

The UF-HDF423M Mini HDMI optical transmitter and receiver is designed to send 1 channel of 1.4a compliant HDMI Video with embedded audio over two optical fibers. HDCP is automatically

The UHD-FOM40-K is a professional HDMI extender engineered to transmit uncompressed 4K@60Hz video

HDMI optical transmitter

and audio over ultra-long distances using single-mode fiber optic cable.

Umaasa kami sa matibay na puwersang teknikal at patuloy na gumagawa ng mga sopistikadong teknolohiya upang matugunan ang pangangailangan ng 2019 Good Quality Hdmi Active Optical Hd

The PM-FT102-U provides a very easy and reliable solution for extending uncompressed HD Video, audio, and control signals up to 32,808 feet (10,000

The VE883AT is a True 4K HDMI Optical transmitter that extends up to 4096 x 2160 / 3840 x 2160 @ 60 Hz (4:4:4) HDMI, audio, USB 2.0, IR, RS-232, and Gigabit Ethernet signals across 300 m

The 4K HDMI over fiber extender is a cutting-edge device designed to extend high-definition video and audio signals over long distances using fiber optic cables.

4K HDMI Extender (FTHS) FTHS is a unique fiber optical transceiver that lets you connect your digital UHD monitor to your PC up to 200 meters (656 ft) away from

Description The 4K HDMI over fiber Transmitter and receiver with return IR or RS232 or RS485 The 4K HDMI over fiber extender is a cutting-edge device designed to extend high-definition video and audio

Supports deep color, x.v.Color(TM), lip sync, HDMI uncompressed audio channels, Dolby TrueHD, DTS-HD, 2K, 4K, and 3D as specified in HDMI 2.0. EDID and CEC signals are passed through from
