

How much does a wire mesh cable tray cost in Mauritania

Article Overview

Wire mesh cable trays in Mauritania typically cost between \$2 and \$25 per meter, depending on material, size, and supplier.

Price Range and Factors

The cost of wire mesh cable trays varies based on several factors:

- o **Material:** Galvanized steel is common and affordable, stainless steel is more expensive, and aluminum is lightweight but pricier. Wire mesh trays are generally cheaper than ladder or perforated trays, making them ideal for lightweight wiring .
- o **Size and Finish:** Larger trays or those with special coatings (HDG, powder coating) cost more due to durability and corrosion resistance .
- o **Supplier and Bulk Orders:** Local suppliers in Mauritania, such as Jeetmull Jaichandlall, offer competitive pricing and may provide discounts for bulk purchases .

Local Availability

MS cable trays, including wire mesh types, are widely available in Mauritania. They are cost-effective, durable, and easy to install, often made from recyclable materials like steel or aluminum . Suppliers emphasize minimal maintenance and long lifespan, which can reduce overall project costs.

Additional Considerations

- o **Shipping and Labor:** Costs may increase depending on delivery distance and installation complexity .
- o **Project Size:** Large-scale projects can benefit from bulk pricing, potentially lowering the per-meter cost significantly .
- o **Warranty and Certification:** Some suppliers offer CE-certified trays with guarantees, which may slightly increase upfront costs but ensure quality and longevity .

In summary, for planning purposes, expect to pay roughly \$2-\$25 per meter for wire mesh cable trays in Mauritania, with the final price influenced by material, size, supplier, and order volume. Contacting local suppliers directly can provide precise quotes tailored to your project needs .
