Huawei eKitOptiX F1001-AC is an enterprise optical gateway. It supports Ethernet GE or XG-PON upstream transmission and implements all-optical gigabit access for enterprises. Huawei OptiXstar S600E is a miniature GPON SFP ONU device that can be inserted into the SFP port of a camera or AP device to provide GPON access for the device to meet the requirements of video backhaul or wireless backhaul. In. As 200 Mbps or higher bandwidth becomes the mainstream and requirements for services such as online education, video, VR, e-Sports, and smart office increase sharply, users need Wi-Fi that supports high bandwidth, low latency, wide coverage, and multi-user concurrent access, driving operators to.

Huawei OptiXstar EG8145B7N-50 is a GPON and Wi-Fi 7 routing-type ONT. It uses the GPON and Wi-Fi 7 technologies to implement ultra-broadband access, high performance and wide coverage for

Huawei eKitOptiX F1001-AC is an enterprise optical gateway. It supports Ethernet GE or XG-PON upstream transmission and. implements all-optical gigabit access for enterprises. It

Our fiber gateways & optical network units are built with an overall software architecture that includes an end-to-end security mechanism by design, covering

AirEngine 5573-21 Huawei AirEngine 5573-21 is a next-generation indoor access point (AP) in compliance with Wi-Fi 7 (802.11be). It can simultaneously provide

Huawei's FTTR solution extends fibers to rooms and provides various gigabit Wi-Fi 6 master/slave FTTR units, all-optical components, and optical cable routing tools, allowing users to enjoy stable gigabit Wi

Huawei OptiXstar E853E is a edge optical gateway ONU designed for small- and medium-sized campuses. It supports XGS-PON in the upstream direction to 10 Gbps access, supports 2 GPON

The Huawei FTTR solution uses dedicated pipe routing tools, innovative micro optical cables, and transparent optical cables, which are easy to be routed through pipes without fiber splicing.

Die FTTR for Home-Lösung von Huawei verlängert den Glasfaser-Zugang bis in einzelne Räume in Ihrem Zuhause. So können Benutzer überall von einem stabilen Gigabit-Wi-Fi-Erlebnis profitieren.

Huawei Fiber Optic Panel Gateway

Overview enterprise primary gateway. It supports Ethernet GE or XG-PON upstream transmission and implements all-optical gigabit Wi-Fi wireless access of terminals. F1001-AC is suitable for small

Explore HUAWEI's latest routers. Learn about HUAWEI WiFi Mesh Series, HUAWEI WiFi BE/AX Series, HUAWEI CPE Series, and HUAWEI Mobile WiFi Series.

Optical Gateway, ONU, Optical AP and ODN Optical Gateway

Huawei OLT aggregates various terminals and provides high-density ports, which can reduce network nodes, sites, and equipment rooms. This simplifies network

FTTR for Home Solution Huawei's FTTR solution extends fibers to rooms and provides various gigabit Wi-Fi 6 master/slave FTTR units, all-optical

Huawei OptiXstar F1001-AC is an enterprise Optical gateway. It supports Ethernet GE or XG-PON upstream transmission and implements all-optical gigabit access for enterprises. It provides downlink

Huawei OptiXstar P892M-02 is an M45 panel ONU designed for scenarios such as enterprise campus. It provides 4 GE (PoE/PoE+) ports on the user side. Huawei OptiXstar E853E is a edge optical
