

Article Overview

Emtron KFT, AVIUS, and BazelKabel Ltd. are key Hungarian manufacturers and suppliers of general-purpose cable trays.

Emtron KFT

Emtron KFT offers a comprehensive range of cable and cable tray systems for industrial and personal construction projects in Hungary. They provide both sales and technical support, including partnership with BAKS distributors, and cater to large-scale projects with professional experience in electrical materials and cable management solutions (Emtron KFT) .

AVIUS

AVIUS specializes in GRP (Glass Reinforced Plastic) cable trays, which are suitable for highly corrosive environments. Their trays are metal-free, transparent to electromagnetic waves, and allow large spans due to the high glass content. AVIUS provides solutions for both industrial and commercial applications, emphasizing durability and safety (AVIUS.hu) .

BazelKabel Ltd.

BazelKabel Ltd. manufactures modular cable tray and ladder systems designed for organized and safe cable management. Their products are suitable for industrial and commercial environments, offering quick installation and long-term reliability. The modular design allows flexibility in various project setups (BazelKabel Ltd.) .

Additional Considerations

These manufacturers provide a variety of materials and finishes, including galvanized steel, stainless steel, and powder-coated options. They also offer accessories such as supports, fixings, and connectors to ensure compliance with standards like EN 61537:2007 for cable tray systems. Depending on project requirements, customers can request custom lengths, perforation patterns, or corrosion-resistant finishes (Kirac Metal) . For purchasing or technical inquiries, it is recommended to contact the companies directly through their websites to obtain catalogs, technical data sheets, and support for project-specific requirements.
