

Article Overview

OM4 multimode fiber optic cables are widely available in Hungary through local manufacturers, distributors, and service providers, supporting high-speed networks up to 40G/100G.

Overview of OM4 Fiber Optic Cables

OM4 cables are multimode fiber optic cables designed for high-speed data transmission, typically used in 10G, 40G, and 100G networks. They feature a 50/125 um core, are often bend-insensitive, and undergo rigorous testing for insertion loss and return loss to ensure reliable performance in enterprise and telecom networks . OM4 cables are ideal for data centers, backbone networks, and high-bandwidth applications. Suppliers like FS Europe and Mouser Electronics provide OM4 patch leads, assemblies, and datasheets for technical specifications .

Key Suppliers and Manufacturers in Hungary

Several companies in Hungary specialize in OM4 fiber optic cables and related services:

- o Unoptix: Offers high-quality optical products, including SFP+ transceivers and passive direct attach cables, focusing on cost-effective and scalable telecommunications solutions .
- o HAL-EP KFT.: Provides turnkey fiber optic network solutions, covering planning, implementation, and operational permits, with expertise in both copper and fiber networks .
- o VANNET Telekomunikacios Kft.: Specializes in high-bandwidth optical fiber solutions, including leased lines and network upgrades, ensuring reliable connectivity .
- o FiberOptic Kft.: Supplies passive optical cable assemblies, components, and network services, with a constantly updated product line .
- o Europages-listed suppliers: Offer B2B access to wholesalers and distributors of optical fiber cables in Hungary, including patch cables and interconnection solutions .

Applications and Services

OM4 cables in Hungary are used for:

- o High-speed data transmission in enterprise and telecom networks
- o Data center interconnects supporting 40G/100G networks
- o Turnkey network installations including planning, deployment, and maintenance
- o Leased line services for dedicated point-to-point connectivity

Companies often provide installation, maintenance, and troubleshooting services, making them suitable for

franchise or large-scale network projects .

Purchasing and Availability

OM4 fiber optic cables can be purchased through:

- o Local distributors and manufacturers for bulk orders and custom assemblies
- o Online electronics suppliers like Mouser Europe for standardized patch leads and datasheets
- o B2B marketplaces such as Europages for direct supplier contact and quotations

When selecting a supplier, consider network requirements, cable length, connector type, and service support to ensure compatibility with existing infrastructure and future scalability.

Our plant is an enclosed, clean area. As a consequence, our Company is a top optical connecting cable manufacturer in Hungary.
