

# Installing a Wifi router and fiber optic cable at home

## Preview

If your ISP doesn't require a technician to set up your connection, these are the steps to self-install fiber internet: Locate your fiber network terminal. Connect the fiber terminal to the network box. Set up. In this guide, we'll walk you through how to connect a fiber optic cable to a router safely and efficiently. Why Use Fiber Optic Internet? Before diving into the setup, let's quickly recap why fiber optics are worth the effort: Lightning-fast speeds (up to 1 Gbps or higher). Network Interface Device (NID): A box where the internet service meets your home's wiring.
