

Iron strips for distribution boxes

Preview

Steel packing strips are robust and reliable materials used for bundling, securing, and packaging various goods. Combine the high wear resistance of a cast iron face with the ease of welding a low-carbon steel base. You'll often see these wear plates used on backhoe and excavator bucket teeth, but you can use them anywhere you need to protect equipment from heavy abrasion, friction, and impact. Features: Specifications: American Elements specializes in producing high purity uniform shaped Iron Strips. American Elements also casts any of the rare earth metals and most other advanced materials into rod, bar or plate form, as well as other machined shapes and through other processes such as nanoparticles and in the. Metal distribution boxes - large product range in ELMARK. They play a key role in. FD Device Box, 1-Gang, Malleable Iron Ridge Top, Cast Box. 69 Inch Includes: Internal Ground Screw.

Iron Strip qualified commercial & research quantity preferred supplier. Buy at competitive price & lead time. In-stock for immediate delivery. Uses, properties & Safety Data Sheet.
