

Article Overview

Kuwait offers a range of cable tray contracting services through established local manufacturers and suppliers, including Al Nafe Group, Bahman Group, EBOMAC, and Keplic, providing FRP, GRP, GI, and stainless steel solutions for industrial and infrastructure projects.

Key Cable Tray Suppliers and Contractors

Al Nafe Group specializes in FRP/GRP cable trays and ladders, offering corrosion-resistant, fire-retardant systems suitable for harsh environments. Their products include ladder and perforated trays, coupler plates, expansion plates, hold-down clamps, trefoil clamps, and a variety of covers and fittings. They cater to both large and small projects, providing custom sizes and accessories for water, wastewater, and chemical storage applications. Bahman Group, located in Shuwaikh Industrial Area, manufactures GI cable trays, ladders, trunking, and enclosures. Their products are widely used in government projects, hospitals, and Kuwait University construction, emphasizing cost-effective, high-quality solutions for local and GCC markets. They have over six decades of experience in general trading and infrastructure projects. EBOMAC provides design, manufacturing, and installation of medium and low voltage switchgear along with cable trays. They focus on compliance with international standards, performance guarantees, and local support during the warranty period. EBOMAC has been active since 1978, offering tailor-made solutions for industrial and commercial projects in Kuwait. Keplic offers cable management solutions and can be contacted for project-specific requirements, though detailed product information is limited on their website.

Product Types and Materials

- o FRP/GRP trays: Lightweight, corrosion-resistant, UV-resistant, and electrically insulating, ideal for chemical or outdoor environments.
- o GI steel trays: Hot-dip galvanized or pre-galvanized, suitable for standard industrial applications.
- o Stainless steel trays: Marine-grade options for high durability and corrosion resistance.
- o Custom fittings: Bends, tees, reducers, covers, and clamps are available to meet project-specific layouts.

Project Applications

Cable trays in Kuwait are widely used in:

- o Industrial facilities: Factories, refineries, and power plants.
- o Infrastructure projects: Hospitals, universities, and government buildings.
- o Special environments: Chemical plants, wastewater treatment, and outdoor installations requiring corrosion-resistant materials.

Contact and Procurement

- o Al Nafe Group: Offers direct supply and custom manufacturing for FRP/GRP trays.
- o Bahman Group: Provides local manufacturing and project installation services.
- o EBOMAC: Offers design, supply, and installation with compliance to international standards.
- o Keplic: Contact via P.O. Box 5377, Safat, Kuwait for cable management inquiries . These companies collectively provide a comprehensive range of cable tray contracting services in Kuwait, covering material selection, custom fabrication, installation, and project support for both industrial and commercial applications.
