

Article Overview

Several manufacturers in Laos offer smart micro-modules and micro-inverter solutions with direct sales and wholesale options.

Key Manufacturers and Suppliers

1. TSUN ESS - Smart Micro-Inverter Solutions TSUN ESS provides advanced smart micro-inverter systems for solar PV installations in Laos, particularly for small to medium enterprises in Vientiane and Luang Prabang. Their micro-inverters convert DC to AC at the panel level, improving energy yield by 15-20% in high-temperature environments. They also integrate IoT monitoring and machine learning algorithms for real-time optimization of solar output. TSUN ESS offers competitive pricing, on-time delivery, and wholesale options, making them a reliable choice for direct procurement of smart micro-modules . 2. Realeen Solar (Laos) Co., Ltd. Realeen Solar specializes in high-efficiency solar cells and modules, including monocrystalline and N-Type models. They focus on R&D, production, and direct sales of photovoltaic products, supporting sustainable energy solutions. Their modules are versatile and suitable for distributed solar generation, and they provide customized solutions for global customers, which can include direct sales in Laos . 3. Alumsun Technology Sole Co., Ltd. Based in Vientiane, Alumsun Technology manufactures solar module frames and components, with a large-scale production facility equipped with automated lines. They offer customizable products and maintain high-quality standards, making them suitable for companies seeking direct procurement of solar micro-modules and related components. Their production capacity ensures stable supply for wholesale orders .

Market Context

The Lao market is shifting from centralized string inverters to distributed smart micro-modules, driven by the need for scalable, efficient, and IoT-enabled solar solutions. This trend allows local businesses to deploy solar systems without large infrastructure investments, while improving energy efficiency and reliability .

How to Procure

- o Contact TSUN ESS for smart micro-inverter kits and wholesale pricing.
- o Reach out to Realeen Solar for high-efficiency PV modules and customized solutions.
- o Engage Alumsun Technology for module frames and component manufacturing with direct sales options.

These manufacturers provide direct sales channels, competitive pricing, and support for bulk orders, making them suitable for enterprises or distributors looking to implement smart solar micro-modules in Laos.
