

Malaysian cable tray manufacturers offer high-quality products

Article Overview

Top Malaysian cable tray manufacturers include SAN Engineering, Array Metal, U-LI Group, NK Synergy, and Sun Energy System, offering high-quality, standards-compliant cable management solutions.

SAN Engineering

SAN Engineering specializes in hot-dip galvanized (HDG) cable trays and other cable support systems. Their products are made from top-grade steel and are available in corrosion-resistant steel, stainless steel, and aluminum alloys, with finishes such as zinc, PVC, and epoxy. SAN trays are designed for efficient cable routing, easy maintenance, and long-term durability, meeting both local and international standards for fabrication and finishing .

Array Metal

Array Metal is a reliable manufacturer and supplier of cable support systems in Malaysia, including cable trays, ladders, trunking, and wire trays. They offer a wide variety of products at competitive prices and maintain a strong international presence, distributing to markets such as Singapore, Australia, and the United States. Array Metal emphasizes timely delivery and dependable support for all cable management needs .

U-LI Group

The U-LI Group has been manufacturing cable support systems since 1978 and operates five manufacturing sites in Malaysia. Their product range includes perforated cable trays, cable ladders, cable trunking, wire baskets, and floor trunking. U-LI trays feature integrated coupling systems, NEMA VE-1 load ratings, and compliance with international standards. Their solutions are suitable for medium to heavy-duty installations in buildings, factories, and industrial complexes .

NK Synergy

NK Synergy offers a versatile selection of cable trays, including perforated, ladder, wire mesh, and FRP (Fiberglass Reinforced Plastic) trays. Their products are available in mild steel, stainless steel, and aluminum, with finishes such as pre-galvanized, hot-dip galvanized, and powder-coated. NK Synergy trays are ideal for data centers, power plants, oil & gas facilities, and corrosive environments, providing both durability and adaptability .

Sun Energy System (UMI Cable Support Solution)

Malaysian cable tray manufacturers offer high-quality products

Sun Energy System produces metal cable ladders, trays, and trunking designed for heavy-duty cable management. Their products are made from Electro Zinc Galvanized Steel, Pre-Galvanized Steel, Mild Steel, and Stainless Steel, meeting NEMA and CSA standards. They offer customization options to suit specific industrial or commercial requirements, ensuring flexibility, scalability, and reliable protection for cables .

Summary

For sourcing cable trays in Malaysia, these manufacturers provide high-quality, durable, and standards-compliant solutions suitable for a wide range of applications, from commercial buildings to industrial plants. When selecting a supplier, consider material type, load capacity, corrosion resistance, and customization options to match your project requirements.

Local manufacturers are the best partners for your project needs as they offer a wide choice of solutions, high-quality

Cable tray system is used to support insulated electrical cables used for power distribution, control, and communications. Cable trays

For Wire Mesh Cable Tray : In-House Manufacturing Facility We have a manufacturing facility on-site with modern equipment and

Leading supplier of durable cable trays in Malaysia. We provide robust solutions for contractors in Petaling

Our cable trays are typically manufactured from high-quality pre-galvanized steel, which offers excellent
