

Article Overview

Atex Delvalle and MAM are leading providers of explosion-proof distribution boxes suitable for hazardous areas in Malta, offering ATEX and IECEx certified solutions.

Key Service Providers

Atex Delvalle specializes in custom-made explosion-protected local control stations and distribution boxes. Their products are manufactured in stainless steel (AISI 304L and 316L) or polyester GRP, designed for extreme temperatures and outdoor conditions. They offer fully configurable enclosures with multiple control elements, push buttons, switches, and meters, suitable for Zones 1, 2, 21, and 22 hazardous areas. Their solutions are certified under ATEX and IECEx standards, ensuring compliance with international safety regulations. MAM is a professional manufacturer of Ex electrical equipment, including explosion-proof distribution systems, junction boxes, control panels, and lighting systems. Their products are engineered for hazardous industrial environments such as oil & gas, petrochemical plants, offshore drilling, and chemical processing. MAM provides custom-engineered solutions for OEMs, EPC contractors, and system integrators, with a focus on personnel and facility safety. All equipment is ATEX and IECEx certified, incorporating protection techniques like intrinsic safety, flameproof enclosures, and pressurization.

Features to Consider

- o Material: Stainless steel (AISI 304/316L) or GRP for corrosion resistance and durability.
- o Certification: ATEX and IECEx for compliance in hazardous zones.
- o Customization: Configurable internal layouts, control elements, and cable entry options.
- o Environmental Resistance: Designed for extreme temperatures, outdoor exposure, and harsh industrial conditions.
- o Applications: Suitable for oil & gas, chemical plants, marine terminals, mining, and pharmaceutical production.

How to Engage

- o Contact suppliers directly through B2B marketplaces like Europages, which lists multiple service providers for explosion-proof distribution boxes in Malta.
- o Discuss project-specific requirements, including zone classification, number of control elements, and environmental conditions.
- o Verify certifications and compliance with local and international safety standards before procurement. By selecting certified providers like Atex Delvalle or MAM, businesses in Malta can ensure safe, reliable, and compliant explosion-proof distribution solutions for hazardous industrial environments.
