

Article Overview

Key manufacturers of underground fiber optic cables in Mexico include Condumex, AFL, MaxFiber, and FibraMarket, all offering high-quality products for telecommunications and industrial applications.

Leading Manufacturers

Condumex is a major Mexican company producing a wide range of cables, including fiber optic cables for telecommunications, power, and industrial applications. They manufacture over 265,000 km of fiber optic cable for Latin America and the Caribbean, supporting advanced technologies like 5G, IoT, and smart city networks, and provide comprehensive logistics and export services across Mexico and internationally (Condumex) . AFL operates in Monterrey, Mexico, offering high-quality fiber optic cables and related products such as connectivity solutions, fusion splicing equipment, and testing tools. AFL emphasizes environmental stewardship and compliance while serving energy, enterprise, and industrial markets (AFL) . MaxFiber specializes in manufacturing and distributing fiber optic equipment and materials, including underground fiber optic cables. They provide maintenance services for fusion splicing and OTDR testing, catering to both commercial and industrial clients in Mexico (FibraMarket) . FibraMarket is a Mexican distributor with over 20 years of experience, offering fiber optic cables, connectors, and splicing equipment. They focus on tailored solutions for businesses, ensuring competitive pricing and reliable service (FibraMarket) .

Supplier Network and Export Data

According to Volza, Mexico has over 800 verified fiber optic cable suppliers, with 427 active exporters shipping globally between June 2024 and May 2025. This robust network allows sourcing of underground fiber optic cables with verified quality, shipment volumes, and direct contact with decision-makers, facilitating risk-mitigated procurement (Volza) .

Considerations for Procurement

When selecting a manufacturer in Mexico, consider:

- o Compliance and standards: Ensure the manufacturer meets local and international telecommunications standards.
- o Product range: Verify availability of underground-rated fiber optic cables suitable for your project.
- o Technical support: Companies like AFL and MaxFiber provide testing, splicing, and maintenance services.
- o Export and logistics: Condumex and FibraMarket offer comprehensive shipping and logistics support for international projects. These manufacturers and suppliers position Mexico as a key player in Latin America's
