

Article Overview

Tecnotray, SIESA, Jeetmull Jaichandlall, and Cable House are leading manufacturers of stainless steel cable trays in Mexico, offering high-quality, corrosion-resistant solutions for industrial and commercial applications.

Key Manufacturers

1. Tecnotray Tecnotray is a prominent Mexican manufacturer offering a wide range of cable support systems, including stainless steel mesh trays made with ANSI 304 quality wire, providing excellent corrosion resistance for chemical, food, and saline environments. Their products are certified by ANCE, LAPEM, PEMEX, and UL, ensuring compliance with national and international standards. Tecnotray also offers innovative finishes and multiple color options for mesh and hinged duct trays, emphasizing durability and aesthetic flexibility . 2. SIESA SIESA specializes in ladder-type cable trays made from fiberglass-reinforced plastic (FRP), which are non-conductive and highly resistant to corrosion, UV exposure, and fire. While their primary material is FRP, they provide durable solutions for industrial and commercial environments, with customizable dimensions and long service life up to 30 years. Their trays comply with UL standards and ASTM regulations, ensuring safety and reliability . 3. Jeetmull Jaichandlall This manufacturer offers a variety of wire mesh cable trays in different sizes, shapes, and colors. They focus on high-quality finishing and adherence to industry standards, providing robust and impact-resistant trays suitable for heavy-duty applications. Their on-site manufacturing facility uses advanced technology to produce tailored solutions for diverse industrial needs . 4. Cable House Cable House has been operating since 1983 and manufactures a wide range of cable trays, including stainless steel options. They provide customized solutions and emphasize durability, reliable performance, and compliance with international standards. Their products are suitable for both national and international markets, and they offer support for installation and project-specific requirements .

Considerations for Choosing a Manufacturer

- o Material Quality: Stainless steel (ANSI 304) offers superior corrosion resistance, especially in harsh environments.
- o Certifications: Look for UL, ANCE, LAPEM, or PEMEX certifications to ensure compliance and safety.
- o Product Range: Consider whether you need ladder, perforated, mesh, or trough trays, and check if the manufacturer offers customization.
- o Durability and Maintenance: Evaluate corrosion resistance, UV protection, and fire safety features.
- o Support and Service: Manufacturers like Tecnotray and Cable House provide technical support and tailored solutions for complex installations. These manufacturers provide reliable options for industrial, commercial, and specialized applications, ensuring long-lasting performance and compliance with safety standards in Mexico.
