

Article Overview

Dutch cable tray prices in the Middle East vary by material, size, and supplier, with quotes typically provided upon request from regional manufacturers.

Suppliers and Product Options

Several leading suppliers in the Middle East offer Dutch cable trays and related cable management systems:

- o West Port Cable Tray (UAE): Offers a wide range of cable trays, ladders, trunking, and wire mesh trays suitable for light, medium, and heavy-duty applications. They provide corrosion-proof and custom-fabricated solutions for industrial, offshore, and telecom projects, with materials designed to withstand harsh environments .
- o DANA Steel (UAE): Manufactures cable trays in stainless steel, mild steel, aluminum, hot-dip galvanized, painted, and powder-coated finishes. Their products are exported across the Middle East, including UAE, Oman, Saudi Arabia, Kuwait, and Bahrain .
- o Bonn Group (UAE): Supplies ladder and perforated cable trays with standardized dimensions and accessories such as bends, junction boxes, and reducers. Their trays are suitable for indoor and outdoor installations in data centers, industrial plants, and energy facilities .
- o MECSS (Saudi Arabia): Provides cable trays, ladders, trunking, and complete cable support solutions with over 20 years of experience in the region .
- o Unitech & SFSP: Offers cable management systems designed to meet international standards for construction and industrial projects across the MENA region .

Pricing Considerations

The cost of Dutch cable trays depends on several factors:

- o Material: Stainless steel and aluminum trays are generally more expensive than mild steel or galvanized options.
- o Size and Load Capacity: Larger trays or heavy-duty designs for industrial or offshore use increase the price.
- o Customization: Custom-fabricated trays, bends, and accessories add to the cost.
- o Quantity and Shipping: Bulk orders and regional shipping logistics affect the final price. Most suppliers in the Middle East do not list fixed prices online due to variability in specifications and project requirements. It is standard practice to request a quote directly from the manufacturer or distributor to get accurate pricing for Dutch cable trays.

Recommendations

Middle East Dutch cable tray prices

- o Contact suppliers like West Port Cable Tray, DANA Steel, Bonn Group, or MECSS with your project specifications to obtain detailed quotes.
- o Specify material, tray width, load rating, and any accessories to ensure accurate pricing.
- o Consider local stock availability to reduce lead times and shipping costs. By engaging directly with these suppliers, you can obtain competitive pricing and ensure the cable trays meet your project's technical and environmental requirements .
