Budget Solutions: Shenzhen Hengxin offers lowest entry cost (\$59. Industrial Use: Hangzhou Shuangyao's T3 protector excels in high-surge environments (20kA). Compact Deployments: Fatech's DIN-rail model provides flexibility for non-rack installations. Each Ethernet Surge Protector is a surge protection device (SPD) that is inserted inline on an RJ45 CAT6/CAT5/CAT5e. The RMSP-CAT6-12 Surge Protector provides surge protection for up to 12 Ethernet lines using 10/100/1000 data rates. The use of ultra-low capacitance diodes ensures superior high frequency response and improved return loss for the four data pairs on each line under surge protection. The unit is. Rack Mount Rail 1U with 16x Ethernet Surge Protectors protects 16 lines, and it's ready to mount into rackmount slot on 19" (inch) (1U) data protection rack server cabinet panel.): 0 Right-Angle Plug; No Output Receptacles: Network Material of Construction: PC (Plastic) Mounting Holes or Slots: Yes Rackmountable: No Network. 24 Port RJ45 Network Lightning Surge Protector With POE Support o Insertion loss: <0. o Nominal discharge current: 5kA.

The RMSP-CAT6T-4 lightning and surge protector provides superior lightning and surge protection for up to four lines with improved frequency response for indoor

TRSS-RJ45-24 Rack-mounted Network Signal Surge Protector Ideally suited for retrofitting, protection of all lines For installation in conformity with the lightning

Protect critical network equipment with industrial-grade rack mounted surge protectors. Need reliable POE-compatible solutions? Discover 24-port models with lightning protection. Click to

Network technicians and small business IT staff will find the ZT-NET Ethernet Surge Protector ideal when you need a compact, plug-and-play

Drawing upon rigorous testing and analytical research, we've compiled a list of the top-rated rack surge protectors that will provide the most

RJ45 Lightning Protection for Gigabit 10/100/1000 (GbE) and High PoE++ Networks The gigabit surge protector data rate of Gigabit 10/100/1000 (GbE) transfer

The RMSP-CAT6-12 Surge Protector provides surge protection for up to 12 Ethernet lines using 10/100/1000 data rates. The use of ultra-low capacitance diodes ensures superior high frequency

Get the best deals on Ethernet Surge Protector and find everything you'll need to improve your home office setup at eBay.com. Fast & Free shipping on many items!

BRRJ45 series signal surge protector (hereinafter referred to as SPD) is suitable for computer networks (Ethernet, LAN, token ring), servers, routers, HuB,

The RMSP-CAT6-12 Surge Protector provides surge protection for up to 12

The RMSP-CAT5S-12 provides protection for up to 12 CAT5 data lines. The unit is fully compatible with industry-standard 802.3af Power-over-Ethernet (PoE)

Rack mount CAT6 lightning surge protectors provide essential surge protection for Ethernet lines, safeguarding network equipment from electrical surges. These rack mount CAT6 lightning surge

When lightning occurs, the high voltage produced by lightning current in all systems will meanwhile exist in their ground cables, and thus all ground cables have the

Product description Ethernet Surge Protector TP302 - LAN Network ESD Thunder Lighting Surge Arrester Gigabit PoE+ RJ45 CAT5E CAT6 Suppressor Ethernet

The RJ45 lightning protection device adopts international advanced lightning protection components, combined with excellent lightning protection circuits to protect the computer The security of the

An indispensable component for any network is reliable surge and lightning protection. L-com's line of Cat6 lightning and surge protectors feature improved frequency response for 10Base-T, 100Base-T
