

Article Overview

Popular ABS pigtail cable brands in New Zealand include OEX, Suzi Cable, and HELLA, all suitable for automotive and trailer ABS/EBS systems.

Key Brands and Suppliers

OEX Cable OEX is a premium Australian-owned brand widely used in New Zealand for automotive applications. Their ABS/EBS trailer cables feature high-conductivity oxygen-free copper, superior flexibility, and a temperature rating of 90°C, making them ideal for engine bays and trailer connections. OEX cables are RoHS compliant and manufactured to AS/NZS 3808 standards, ensuring reliable performance and long lifespan under harsh conditions . **Suzi Cable** Suzi Cable offers pre-fitted 7-core ABS/EBS cables for 12V and 24V systems, available in lengths such as 4 meters. These cables are compatible with standard ABS plugs (e.g., 17-918) and can be purchased as complete pre-fitted units for easier installation . Suzi Cable is a trusted supplier for trailer and caravan applications in New Zealand. **HELLA** HELLA provides a range of ABS plugs, sockets, contacts, and spiral cables, suitable for ABS/EBS braking systems. Their products are designed for durability and compatibility with standard ABS connectors, making them a reliable choice for both new installations and replacements .

Local Suppliers

- o **Firstflex:** Specializes in industrial and automotive flexible cables, including ABS/EBS options .
- o **Tycab NZ:** Offers a wide range of cables and accessories, including ABS pigtail cables, with support for technical questions and installation guidance .
- o **Repc NZ:** Stocks OEX ABS/EBS trailer cables and other automotive electrical components .
- o **Sparkshop NZ:** Supplies Suzi Cable pre-fitted ABS/EBS cables for trailers and caravans .

Considerations When Choosing ABS Pigtail Cables

- o **Core count:** Typically 7-core for ABS/EBS systems.
- o **Voltage compatibility:** Ensure 12V or 24V rating matches your vehicle system.
- o **Flexibility and strand count:** Higher strand count improves flexibility for tight installations.
- o **Temperature rating:** Look for cables rated at 90°C or higher for engine bay or trailer use.
- o **Compliance:** Check for RoHS and AS/NZS standards to ensure safety and durability. By selecting from these reputable brands and suppliers, you can ensure reliable ABS/EBS cable performance for trailers, caravans, and automotive applications in New Zealand.
