

New Zealand sells electrical distribution boxes and cabinets

Article Overview

New Zealand has several manufacturers specializing in electrical distribution boxes and cabinets, offering custom and standard enclosures for industrial, commercial, and residential applications.

Leading Manufacturers

GSME (Gilbert Sheetmetal & Engineering Limited) produces aluminium and stainless-steel electrical cabinets, enclosures, meter boxes, panels, and switchboards. They provide tailor-made designs for electrical, traffic, and infrastructure applications, including pillar, toby, and Montrose boxes, gear plates, mounting frames, and switchboards . Spectrum offers both standard-sized and custom-manufactured electrical switchboard enclosures. Their products are widely used across New Zealand, including distinctive pillar boxes visible on streets, and they provide full design and build services for complex projects . B&R Enclosures is a family-owned company with divisions covering industrial, data ICT, hazardous areas, and residential/commercial sectors. They manufacture electrical enclosures, server racks, cabinets, and switchboard systems, all compliant with AS/NZS 61439 standards . Metcon has over 40 years of experience producing Hicks electrical cabinets and indoor/outdoor enclosures. They offer custom sizes and stainless steel options, serving nationwide clients . Stainless Electrical Products (SEP) specializes in precision-engineered stainless steel enclosures and integrated electrical systems. Their offerings include IP66 stainless enclosures, modular cabinets, wire mesh cable trays, and air manifolds, all customizable to project requirements .

Product Features and Options

- o Materials: Aluminium, stainless steel, and sheet metal for durability and corrosion resistance.
- o Customization: Sizes, mounting options, and integrated electrical components tailored to client specifications.
- o Applications: Industrial, commercial, residential, data centers, hazardous areas, and infrastructure projects.
- o Standards Compliance: Many products meet AS/NZS 61439 and IP66 ratings for safety and environmental protection. These manufacturers provide both off-the-shelf and fully customized solutions, ensuring that electrical distribution needs across New Zealand are met with high-quality, reliable enclosures.
