

Article Overview

Oglaend System and VALDINOX are leading Norwegian manufacturers producing galvanized cable trays.

Oglaend System

Founded in 1977 in Sandnes, Norway, Oglaend System specializes in multidiscipline support systems, including cable trays and cable ladders . The company manufactures galvanized cable trays and offers solutions for industries such as oil & gas, shipbuilding, wind energy, infrastructure, and marine farming . Oglaend System operates factories in Norway, Malaysia, and China, ensuring both local and international supply. Their MultiGrid(R) installation concept reduces system weight, installation time, and overall project costs while improving safety performance .

VALDINOX

VALDINOX, established in 1982, focuses on designing and manufacturing wire mesh cable trays, supports, and easy-installation accessories, including hot-dip galvanized options . The company emphasizes durability and secure installation, catering to industrial and infrastructure projects. VALDINOX has extensive experience in producing high-quality cable management systems suitable for demanding environments .

Summary

Both Oglaend System and VALDINOX are reputable Norwegian manufacturers of galvanized cable trays, offering products suitable for heavy-duty industrial applications and international projects. Oglaend System is notable for its global presence and innovative installation systems, while VALDINOX is recognized for durable wire mesh trays and easy-installation solutions . These companies provide reliable options for sourcing galvanized cable trays in Norway.
