

Optical Time Domain Reflectometer MTS6000

Preview

JDSU's MTS-6000 is a compact and lightweight test platform designed for the installation and maintenance of fiber networks. It provides field service technicians with the highest levels of performance and upgradeability on the market today. JDSU MTS-6000 platform is a modular device that allows adjustment to a wide range of applications using over 40. Customer Reviews, including Product Star Ratings, help customers to learn more about the product and decide whether it is the right product for them. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how. The MTS6000AV2 from Viavi Solutions Inc. is a Optical Time Domain Reflectometer (OTDR) with Event Dead Zone 0. More details for MTS6000AV2 can be seen below.

Softel optical time domain reflectometer 1300 1550 1625 nm mini otdrprice fiber optic measuring apparatus tester OTDR \$149-298 MOQ: 1 piece

Power your fiber optic testing equipment with our professional-grade Anritsu OTDR batteries. Designed for telecommunications, fiber optic installation, network maintenance, and field testing applications,
