

Powder Coating Cable Tray

Preview

Powder coating provides barrier protection -- the organic coating physically isolates the steel from the corrosive environment. Cable tray systems are the structural pathways that support and route electrical power cables, data cables, and communication wiring throughout commercial buildings, industrial facilities, data centers, and infrastructure installations. For critical applications where reliability and zero contamination is a priority, Hi-Wire(TM) offers a line of black powder coated cable basket trays. The smooth powder coated finish minimizes the potential of corrosion and zinc. Our Powder Coated Cable Trays are used extensively in Buildings, Water Power Industrial Sectors, Malls, Railway Station, Metro Stations, Airports etc. For cable installation for power distribution and communication. These trays can accommodate large number of branch lines and have high load-bearing. color custom, cable protection, anti-corrosion, waterproof, anti-rust, anti-static. Compared with ordinary galvanized cable trays, the Superfab Inc., a trusted name in the industry, is proud to present its high-quality Powder Coated Cable Trays.

10-foot tray sections can be bolted together for longer cable routing systems Durable black powder-coated finish for enhanced rust and corrosion resistance Heavy-duty wire mesh construction

Kiash Electricals - Offering 50mm Powder Coated Race Way,Epoxy Coated Cable Tray in Kolkata, West Bengal. Also get Powder Coated Cable Trays price list from verified companies | ID: 2854707294133

High tensile strength. Excellent chemical resistance. Space Savings. Install quickly using drop in support. Support large quantity of network cables. Available in
