

Price of Branded Galvanized Cable Trays

Article Overview

Galvanized cable trays typically range from \$20 to \$150 per standard 2.4-meter section, depending on type, size, and manufacturer.

Typical Pricing

- o Hot-dip galvanized ladder cable trays: Standard 2.4-meter lengths are commonly priced between \$25 and \$80 per tray, with fittings (elbows, tees, reducers) sold per piece, usually \$5-\$20 each depending on size and complexity .
- o Perforated or mesh galvanized trays: Prices vary more widely, generally \$30-\$150 per 2.4-meter section, reflecting differences in material thickness, load capacity, and corrosion resistance .
- o Premium brands: Well-known manufacturers like Legrand, ABB, and Atkore may charge higher prices due to quality assurance, certifications, and durability, often at the upper end of the range .

Factors Affecting Price

- o Material and Coating: Galvanized steel provides corrosion resistance, which increases cost compared to plain steel trays .
- o Tray Type: Ladder trays are generally less expensive than perforated or mesh trays due to simpler construction .
- o Size and Load Capacity: Wider trays or those designed to support heavier cable loads cost more.
- o Regional Market: Prices vary by region; Asia-Pacific markets (China, India) often offer lower prices due to large-scale manufacturing, while North America and Europe may have higher costs due to labor and material expenses .
- o Accessories and Fittings: Elbows, tees, reducers, and mounting hardware add to the total cost of installation .

Market Overview

The global galvanized cable tray market was valued at \$2.615 billion in 2025 and is projected to grow at a 7% CAGR through 2033, driven by industrial automation, IT infrastructure, and energy projects . Ladder and perforated trays dominate the market, and demand is increasing for durable, corrosion-resistant solutions suitable for both indoor and outdoor applications .

Summary

For budgeting purposes, expect standard 2.4-meter galvanized ladder trays around \$25-\$80, perforated or mesh trays \$30-\$150, with fittings adding extra cost. Prices vary by manufacturer, region, and tray specifications, and premium brands command higher prices due to quality and certifications .
