

Price of Tray Cable Tray Base Bracket

Article Overview

Cable tray base brackets typically range from \$15 to \$50 per unit, depending on material, size, and supplier.

Cable tray base brackets are essential for securely mounting cable trays to floors, walls, or ceilings in data centers, industrial spaces, or commercial installations. For example, the Tripp Lite SRWBUNVBASE standoff base bracket for wire mesh cable trays is available on Amazon and is priced around \$29.99 per bracket, made from black powder-coated metal and designed for easy floor installation with user-supplied hardware . Other suppliers, such as CMW in the UK, offer a variety of cable tray brackets for ceiling, wall, or floor mounting, with prices varying based on material quality, load capacity, and delivery options . Industrial suppliers like Graybar provide brackets compatible with different tray types, but pricing may require account login or ZIP code input to view, and minimum order quantities may apply . Factors affecting price include:

- o Material: Steel, stainless steel, or zinc-plated options affect durability and corrosion resistance .
- o Bracket type: Floor mount, wall mount, or adjustable brackets can vary in cost.
- o Size and load capacity: Larger or heavy-duty brackets are more expensive.
- o Supplier and shipping: Direct vendor orders or international shipping can increase total cost. For budgeting, expect \$15-\$50 per bracket for standard floor-mount or standoff types, with premium or heavy-duty models potentially exceeding this range. Always verify compatibility with your cable tray system and follow manufacturer installation guidelines.
