

Price of Weak Elevator-Shaped Cable Trays

Article Overview

Elevator-type cable trays typically cost between \$2 and \$25 per meter, depending on material, type, and surface treatment.

Elevator-type cable trays, also known as vertical or cascade cable trays, are used to support and organize cables in elevator shafts and other vertical installations. The price varies significantly based on material (galvanized steel, stainless steel, aluminum, or plastic), surface treatment (pre-galvanized, hot-dip galvanized, powder-coated), tray type (ladder, perforated, or wire mesh), and dimensions such as width and height . Typical price ranges:

- o Galvanized steel trays: \$2-\$10 per meter, offering a balance of durability and cost .
- o Stainless steel trays: \$15-\$25 per meter, providing high corrosion resistance for harsh environments .
- o Aluminum trays: \$10-\$20 per meter, lightweight and rust-proof .
- o Plastic or halogen-free trays: \$2-\$8 per meter, suitable for light-duty applications . Cost factors include:
 - o Load capacity: Ladder trays for heavy cables cost more than perforated or wire mesh trays .
 - o Installation height and accessibility: Elevator shafts may require additional labor or custom fittings .
 - o Order quantity: Bulk purchases can reduce per-meter cost by 20-40% .
 - o Supplier location: Importing from China or other regions can lower costs by 30-50% . For weak or light-duty elevator cable trays, pre-galvanized steel or perforated trays are commonly used, which are on the lower end of the price spectrum, around \$2-\$8 per meter . Custom sizes, coatings, or higher load capacities will increase the price. It is recommended to contact suppliers directly for exact quotations, as prices can vary based on specifications, shipping, and installation requirements .

Discover a comprehensive range of high-quality cable trays and cable ladders at ekabel24.com - the reliable choice for safe,

Cable trays and baskets are designed to help support and route cable bundles in an organized manner along ceilings or walls. [Shop](#)
