

Article Overview

The cost of a whole bundle of optical fiber cable varies widely, typically ranging from \$0.09 to \$6 per foot depending on fiber type, strand count, and cable construction.

Pricing Overview

- o Wholesale bulk purchases of fiber optic cable can cost \$0.09 to \$1.52 per foot, while retail prices range from \$1 to \$6 per foot .
- o Single-mode fiber is generally cheaper per foot (\$0.10-\$0.50) than multimode fiber (\$0.30-\$1.00), but single-mode requires more expensive equipment for installation .
- o High strand-count cables increase the price: a 12-strand cable may cost around \$0.50 per foot, while a 24-strand cable can reach \$1.00 per foot .
- o Specialized cables, such as armored or plenum-rated cables, can cost \$0.50 to \$5 per foot depending on durability and installation environment .

Bulk Roll Options

- o Many suppliers offer 1000-foot rolls or larger bundles for professional installations .
- o Buying in bulk often provides discounts, making it more cost-effective for large projects .
- o Pre-terminated assemblies or patch cables are more expensive due to factory termination and connector types .

Factors Affecting Total Bundle Cost

- o Fiber Type: Single-mode vs multimode affects both price and performance.
- o Strand Count: More fibers per bundle increase cost proportionally.
- o Cable Construction: Indoor riser-rated, plenum-rated, or armored cables have different price points.
- o Length of Cable: Longer bundles naturally cost more, but bulk pricing reduces per-foot cost.
- o Installation Environment: Underground or harsh environments may require specialized cables, increasing cost.

Example Estimate

- o A 1000-foot roll of 12-strand single-mode fiber could cost approximately \$90-\$500 depending on construction and supplier.
- o A 1000-foot roll of 288-strand multimode fiber for backbone applications could reach \$2,880-\$6,000 . In summary, the price of a whole bundle of optical fiber cable depends on fiber type, strand count, cable length, and construction, with bulk purchases offering significant savings for large-scale installations .
