

Price of fiber optic cable for smart buildings in Israel MGTS32

Article Overview

Fiber optic cables for smart building applications in Israel typically range from USD 1 to USD 5 per meter, depending on type, quality, and supplier.

Pricing Overview

The cost of fiber optic cables in Israel varies based on cable type (single-mode vs multimode), connector type, length, and environmental protection. For smart building installations, armored or indoor-rated cables are often preferred for durability and safety. Typical prices for standard single-mode or multimode fiber optic cables suitable for smart buildings range from USD 1 to USD 5 per meter, with higher-end armored or specialized cables costing more .

Supplier Options

- o TopMarket.co.il offers a variety of fiber optic cables for immediate delivery, including SC/APC connectors commonly used in residential and commercial networks .
- o Mouser Israel provides a wide selection of fiber optic cables from leading manufacturers, with pricing available per unit and datasheets for technical specifications .
- o Farnell Israel supplies high-speed, high-bandwidth fiber optic cables suitable for telecommunications and smart building networks, with options for single-mode and multimode configurations .
- o MER Group and PacketLight Networks specialize in network design and deployment, offering advanced fiber solutions for commercial and smart building applications .

Market Context

The Israeli cable market is growing rapidly, driven by smart infrastructure and high-speed connectivity projects. As of 2025, the market is valued at USD 1.52 billion, with fiber optics being a key segment for smart buildings, data centers, and defense applications . This growth supports a competitive pricing environment, but specialized cables like MGTS32 may require direct quotes from suppliers due to customization and certification requirements.

Recommendation

For accurate pricing of MGTS32 fiber optic cable, it is recommended to contact local distributors or manufacturers directly (e.g., Mouser, Farnell, MER Group) to obtain quotes based on required length, type, and installation environment. Bulk orders or armored cables may reduce per-meter costs.
