

Price of pipe gallery cable trays

Article Overview

Pipe gallery cable trays typically range from \$14 to \$100+ per section depending on material, size, and installation requirements.

Material and Type Impact on Price

- o Galvanized Steel: Common for indoor and moderately corrosive environments; prices start around \$14-\$50 per tray section for standard sizes and lengths, with heavier-duty or hot-dip galvanized options costing more .
- o Aluminum: Lightweight and corrosion-resistant, ideal for outdoor or industrial use; generally more expensive than steel, often \$50-\$100+ per section .
- o Stainless Steel: Highest durability and corrosion resistance, used in food, chemical, or marine environments; prices are the highest among common materials .
- o Wire Mesh or Ladder Trays: Open designs for ventilation and easy cable access; prices vary from \$26 for smaller mesh trays to \$100+ for larger ladder trays .

Size and Configuration

- o Widths typically range from 50 mm to 1200 mm, with lengths of 2.5-3 meters per section .
- o Larger widths and higher load capacities increase the cost.
- o Accessories such as coupler plates, dropouts, and fittings add to the total price, often 20-30% of the base tray cost .

Installation and Labor Considerations

- o Pipe gallery trays are generally faster to install than conduit systems, reducing labor costs by 40-60% in large projects .
- o Supports, brackets, and bends (tees, elbows) are additional costs that must be factored in for a complete installation .

Regional and Supplier Variations

- o Prices vary by region due to labor, shipping, and material costs. For example, North America favors snap-together or aluminum trays for faster installation, while Southeast Asia focuses on steel and shipping efficiency .
- o Suppliers like New Life Steel offer custom PEB-based gallery systems for industrial projects, which are priced based on load, length, and customization requirements .
- o Indian suppliers such as B.E.C. Conduits and M.G. Cable Industries provide GI, HDGI, and powder-coated trays with prices listed per section, often with minimum order quantities and GST applicable .

Price of pipe gallery cable trays

Summary

For budgeting purposes:

- o Small indoor galvanized steel trays: \$14-\$50 per section
- o Aluminum trays: \$50-\$100+ per section
- o Stainless steel or heavy-duty outdoor trays: \$100+ per section
- o Additional costs: Supports, brackets, bends, and covers can add 20-50% to the total project cost For precise pricing, it is recommended to contact suppliers directly with specifications including material, width, height, length, and load requirements to obtain a detailed quote.
