

Prices of Junction Boxes and Fiber Optic Cable Accessories

Article Overview

Fiber optic junction box accessories typically range from \$20 to \$150 per unit, depending on type, capacity, and features.

Price Overview

- o Small Indoor Wall-Mount Terminal Boxes: Basic 2-4 port fiber distribution boxes for indoor use, suitable for SC/LC adapters, generally cost \$20-\$50 per unit on platforms like Amazon .
- o Medium to Large Wall-Mount Enclosures: BUDI(TM) or similar fiber optic wall enclosures with FOSC splicing capability and multiple ports can range from \$50-\$120, depending on size and adapter capacity .
- o Outdoor/IP65-Rated Distribution Boxes: Weatherproof, dustproof, and moisture-resistant boxes with 12-core capacity, integrated cable management, and support for SC/FC/PLC adapters typically cost \$80-\$150 .
- o Splice Trays and Accessories: Individual splice trays, couplers, pigtails, and sealing kits for junction boxes are usually priced \$10-\$40 per accessory, depending on material and compatibility .

Factors Affecting Price

- o Capacity: Boxes supporting more fibers or adapters (e.g., 12-core vs 4-core) are more expensive.
- o Material and Durability: ABS or PC alloy enclosures with IP65 rating for outdoor use cost more than basic indoor plastic boxes.
- o Functionality: Features like integrated cable management, separate pathways for patch cords, and pre-installed splice trays increase cost.
- o Brand and Supplier: Manufacturer or branded products (CommScope, Eks Fiber Optic System) are generally higher priced than generic Amazon or small business brands.

Buying Tips

- o For FTTH or small indoor networks, a 4-port SC/LC distribution box is cost-effective and sufficient.
- o For outdoor or high-density networks, invest in IP65-rated enclosures with integrated splice trays and flexible adapter capacity.
- o Consider bundled accessories (splice trays, adapters, sealing kits) to reduce overall installation costs. By comparing features, capacity, and environmental suitability, you can select fiber optic junction box accessories that balance performance and cost effectively .
