

Article Overview

Qatar offers a range of waterproof distribution boxes, including IP65 to IP67 rated enclosures made from durable materials like ABS, PC/ABS, HDPE, and stainless steel, suitable for industrial, outdoor, and sporting applications.

Key Models and Specifications

o DELTA Series Wall Mounted Distribution Boxes

- o Material: PC/ABS, free from cadmium, halogens, and red phosphor
- o Features: High impact resistance, thermal stability, dielectric strength, UV and chemical resistance
- o Applications: Industry, workshops, agriculture, public buildings, leisure, marinas, and camping
- o Customization: Can be combined horizontally or vertically for tailored configurations

o Syntax MD4 Three Phase IP67 Portable Distribution Board

- o Material: HDPE, IP67 waterproof rating
- o Capacity: 125A/5P three-phase, multiple single and three-phase outlets with MCBs and RCBOs
- o Features: Lockable hinged windows, pre-wired components, suitable for outdoor events like FIFA sporting events in Qatar
- o Customization: Bespoke configurations available for specific power distribution needs

o DOITool 2-Way IP65 Distribution Protection Box

- o Material: ABS and polycarbonate
- o Features: Transparent window, lockable cover, compact size for indoor/outdoor use
- o Applications: EV charging stations, workshops, campervans, and small electrical installations
- o Limitations: Limited space for cable termination; better suited for compact setups

o Stainless Steel Weatherproof Distribution Box (IP66)

- o Material: Stainless steel, corrosion-resistant
- o Features: Double doors, removable galvanized back plate, high protection against dust and water
- o Applications: Outdoor wiring, industrial and construction settings, garages, sheds, or outdoor kitchens
- o Advantages: Durable, long-lasting, suitable for heavy-duty electrical distribution

Considerations for Selection

- o IP Rating: Choose IP65 for general outdoor protection, IP66/IP67 for high water exposure or harsh environments.
- o Material: ABS/PC/ABS for lightweight and chemical resistance, HDPE for robust portable solutions, stainless steel for extreme durability.
- o Capacity and Configuration: Ensure the box supports the required amperage, number of circuits, and type of

outlets.

- o Customization: Some suppliers offer pre-wired or bespoke solutions for specific applications, including sporting events or industrial setups.

Suppliers in Qatar

- o Alsiraj Qatar: Offers DELTA, STROBL, and ANIF series wall-mounted boxes with tailored configurations
- o Cabtech Qatar: Distributor of over 40 brands, providing wall box enclosures and electrical mechanical products
- o Ubuy Qatar: Provides stainless steel weatherproof boxes suitable for outdoor and industrial use These options provide a comprehensive range of waterproof distribution boxes suitable for various applications in Qatar, from compact residential setups to large-scale industrial or event-specific installations.
