

Article Overview

You can source SFP air-cooled switches from specialized distributors like Lanmus, DirectIndustry-listed manufacturers, and certified Cisco partners.

Key Resellers and Distributors

- o Lanmus Lanmus offers a wide range of unmanaged, managed, and industrial switches, including high-density SFP and optical modules. They provide solutions for data centers and campus networks, including air-cooled switches with high power efficiency and energy-saving designs. Their products include 10 Gigabit SFP modules and submersible liquid-cooled switches suitable for large-scale deployments. Lanmus operates globally and can be contacted directly for purchasing or consultation (Lanmus, Katy, TX) .
- o DirectIndustry Manufacturers DirectIndustry lists hundreds of SFP and SFP+ network switches from leading industrial manufacturers such as Advantech, Kontron, and ELMA. These switches often feature wide operating temperature ranges, PoE capabilities, and flexible SFP ports for fiber expansion. Many models are designed for harsh environments, making them suitable for industrial or outdoor applications .
- o Cisco Certified Partners Cisco's Partner Locator allows you to find authorized resellers and integrators worldwide. These partners provide certified SFP switches, including air-cooled models, and can offer installation, support, and warranty services. Searching by location ensures you connect with partners near your facility .

Cooling Solutions for Air-Cooled Switches

For optimal performance, especially in rack-mounted environments, consider passive airflow management devices like Vertiv SwitchAir or Daxten SwitchAirBox. These devices channel cold aisle air to switch intakes and prevent hot air recirculation, reducing the risk of overheating and equipment failure. They are compatible with standard 1RU switches and can be installed quickly in existing racks .

Recommendations

- o Determine your switch requirements: number of SFP ports, PoE needs, and environmental conditions.
- o Contact resellers directly: Lanmus and Cisco partners can provide quotes, lead times, and technical support.
- o Consider airflow management: Using SwitchAir or similar devices ensures reliable operation of air-cooled SFP switches in dense rack setups. By combining a certified reseller with proper cooling solutions, you can ensure both availability and longevity of your SFP air-cooled network switches.

From legacy 1G SFP uplinks to hyperscale 800G OSFP AI clusters, our modules are built on MSA standards and powered by top-tier

Reseller of SFP air-cooled switches

D-Link DXS-1210-12SC: 12 SFP+, two of which are shared with 10GBaseT ports. Static routing (IPv4/v6 - up to 8 interfaces on the

SFP/SFP module/transceiver/QSFP/OSFP We offer high-quality, compact SFP modules and transceivers in a variety of versions.

The ComNet SFP interface is required for use with all ComNet SFP configurable products to qualify for the ComNet Lifetime Warranty.

Online shopping. w/24h-delivery, 7Days & Refund Guarantee. CE, RoHS and ISO9001 Certified. SFP+ Cables, QSFP+ Cables,

FS provides 50/25/10/1G transceivers modules in SFP/SFP28/SFP56/QSFP28 form factor, supporting

The 3 SFP+ Managed Switch Comparison: Fiber & DAC Switches in 2026: Our Top Picks Across candidates

Faster internet & Wi-Fi without buying new hardware: switch to Meter, we'll buy back your current hardware and ensure it doesn't go

SULITON provides various SFP Transceivers compatible with various SFP switches (such as CISCO,

SFP scalability and expansion. The switches' modular design and support for SFP transceivers make it straightforward to add new

AMG's optical & copper transceivers are compliant with the Small Form-Factor Pluggable (SFP) Multi-Source Agreement (MSA)

Lightning-Fast Data Transfer with Fibre Optical Transceivers "Unleash Lightning-Fast Data Transfer Speeds" Experience the next

Shop SFP Module for all switches, including 155M, 1G, 2.5G, 3G&4G speed, 100m to 160km. Compatible with 80 OEMs like Cisco,

Official Cisco Partner Locator - Find certified Cisco partners, resellers, and integrators near you. Search by location, specialization,

Supporting both copper and fiber optic cables, these modules enable seamless data transmission. Syrotech Networks, a leading
