

Article Overview

Leading Sino-European steel cable tray manufacturers include Shandong Tianhong, Eurotray, and Emit Metal, offering high-quality, customizable cable management solutions for industrial and commercial projects.

Key Manufacturers

1. Shandong Tianhong Electric Power Technology Co., Ltd. Founded in 2006 in China, Tianhong specializes in the R&D, production, and global supply of cable tray systems, including perforated trays, cable ladders, trunking, strut channels, and fittings. The company offers OEM & ODM services, automated production lines for efficient manufacturing, and solutions suitable for power plants, data centers, commercial buildings, and infrastructure projects. Their products feature heavy-duty support, excellent ventilation, corrosion-resistant powder-coated surfaces, and flexible installation options . 2. Eurotray Metal Kablo Tasima ve Elektrik San. Tic. A.S Based in Turkey and founded in 2006 as part of Cemesan Grup, Eurotray provides a wide range of steel cable management systems. They focus on durable, high-quality solutions for industrial and commercial applications, leveraging decades of experience in the steel industry. Eurotray offers customized solutions and supports large-scale projects across Europe and beyond . 3. Emit Metal Emit Metal, established in 2004 in Turkey, is a leading manufacturer of metal cable trays, ladders, and trunking systems. The company has a monthly production capacity exceeding 1,000 tons, providing robust solutions for industrial installations. Emit Metal emphasizes high-strength materials, corrosion protection, and flexible design options for complex cable routing . 4. DKC Europe A European leader in cable tray systems, DKC offers comprehensive solutions for energy protection, transport, and distribution in civil and industrial infrastructures. Their product range includes cable trays, ladders, and accessories designed for durability, safety, and efficient installation . 5. Ectray Ectray provides high-strength cable trays and ladders with support systems ranging from 2mm to 6mm thickness, available in pre-galvanized, hot-dipped galvanized, and painted coatings. Their solutions are designed to reduce design errors, lower project costs, and facilitate planning and management of large-scale installations .

Considerations for Selection

- o Material and Coating: Stainless steel, galvanized, or powder-coated options for corrosion resistance.
- o Customization: OEM/ODM services for project-specific dimensions and load capacities.
- o Production Capacity: Ensure the manufacturer can meet large-scale project demands.
- o Compliance and Certification: Check for ISO, CE, or other relevant certifications for quality assurance.
- o Global Reach: Manufacturers with international shipping and local support in Europe and Asia can simplify logistics. These manufacturers provide reliable, high-quality cable tray systems suitable for industrial, commercial, and infrastructure projects, combining European standards with Chinese manufacturing efficiency.

Sino-European Steel Structure Cable Tray Manufacturer

Wire mesh cable tray is fabricated with high quality galvanized steel wire or stainless steel

Cable Trays Clear cable routing - Organized and safe cable management, easy maintenance, helps prevent failures. Strong and
