

Article Overview

Slovakia hosts a range of fiber optic patch cord and cable manufacturers, including Sylex, PROFiber Networking, Keline, SKB-GROUP, and Foss Fibre Optics.

Key Manufacturers

Sylex specializes in high-quality optical interconnect solutions, including MTP(R) harnesses and custom fiber optic assemblies, offering both high-volume and tailored products suitable for industrial and telecom applications . PROFiber Networking CZ s.r.o. provides fiber optic manufacturing, calibration, and testing services through an accredited laboratory. They also offer professional training in fiber optics, making them a strong partner for technical support and quality assurance . Keline focuses on structured cabling systems, including optical cabling, and supplies a comprehensive portfolio of components that meet international standards for high-speed digital transmission . SKB-GROUP produces a wide range of flexible fiber optic cables, emphasizing innovation, product development, and rigorous testing to deliver customized solutions for industrial and commercial needs . Foss Fibre Optics operates a Slovakian facility with over 2,200 m² of production space, capable of manufacturing more than 1 million connector terminations annually. They provide single-mode duplex patch cords and specialized fiber optic solutions for telecom, defense, offshore, and industrial environments .

Supplier Network and Sourcing

According to Volza, Slovakia has 194 fiber optic cable suppliers actively shipping worldwide, providing a robust network for procurement. Their database includes verified shipment records, direct contact information, and supplier risk assessments, which can help in selecting reliable partners for long-term collaboration .

Considerations for Procurement

When sourcing fiber optic patch cords in Slovakia, consider:

- o Production capacity and ability to meet custom specifications
 - o Certifications such as ISO 9001 for quality assurance
 - o Technical support and testing services
 - o Delivery reliability and historical shipment performance
- These factors ensure that the selected manufacturer can provide high-quality, durable fiber optic patch cords suitable for demanding applications. By leveraging these Slovakian manufacturers, businesses can access both standard and custom fiber optic solutions for telecommunications, industrial networks, and specialized environments .

We terminate single and multi-mode fiber with most standardized contacts such as FC, SC, ST, LC, E2000, MT-RJ and DIN. In
