

Article Overview

Leading South Korean suppliers of electrical distribution boxes include SKKBO, BOXCO, and Legrand Korea, offering a range of certified and customizable solutions.

Key Suppliers

SKKBO is a prominent manufacturer with over 20 years of experience, providing high-quality, customizable electrical boxes and distribution solutions. Their products are certified with UL, CE, IP, IK, and CCC, and they serve customers in over 180 countries, including Europe, North America, and Southeast Asia. SKKBO specializes in indoor distribution boxes for offices, shopping centers, and industrial applications, offering lightweight and easy-to-install options with full technical support and customization services .

BOXCO, Inc. is a South Korea-based supplier and exporter of plastic enclosures and distribution boxes. They are known for their reliable manufacturing and international export capabilities, catering to both domestic and global markets .

Legrand Korea provides a comprehensive range of electrical materials, including distribution boards with protection systems, circuit breakers, and emergency power switching devices. They serve residential, commercial, and industrial sectors, offering solutions suitable for data centers, housing, and commercial facilities .

Additional Resources

For a broader list of manufacturers and suppliers, platforms like Trademo provide detailed shipment data, trade volumes, and supplier contacts for electrical boxes in South Korea, which can help identify potential business partners and evaluate market options .

Considerations for Selection

- o Material: Plastic vs. metal enclosures depending on application and durability requirements.
- o Certifications: UL, CE, IP, IK, and CCC for international compliance.
- o Customization: Size, configuration, and additional features for specific installations.
- o Application: Residential, commercial, industrial, or specialized environments.
- o Support: Availability of technical assistance and installation guidance.

These suppliers provide a mix of domestic and export-ready solutions, making them suitable for both local projects and international procurement.
